PART II — OFFERING CIRCULAR

ITEM 3. SUMMARY INFORMATION, RISK FACTORS AND DILUTION

Investing in the Company's Securities is very risky. You should be able to bear a complete loss of your investment. You should carefully consider the following factors, including those listed in this Securities Offering.

The Company is a Newly Formed Corporation with Limited Operating History

The Company was initially formed in July of 2009 as "LA Investment Capital Energy Fund, LLC", a California Limited Liability Corporation. The Company was converted to a California Stock Corporation in April of 2012, and the Company changed its name to "Delray Securities Energy Fund, Inc". The Company changed its name to "Alternative Securities Markets Group Energy Fund, Inc" and began its operations in June of 2014. As a result, the Company has limited financial information on which you can evaluate an investment in the Company. The Company is subject to all the business risks and uncertainties associated with any new business, including the risk that the Company will not achieve its investment objectives and that the value of your investment could decline substantially or become worthless. Although the Company's Management anticipates that it may take six to twelve months to invest substantially all of the net proceeds of the Offering in the Company's targeted investments, because the Company's relatively small size and lack of operating history, the Company may be unable to identify and fund investments that meet the Company's Investment criteria.

Until the Company is able to invest the net proceeds of the Offering in suitable investments, the Company will invest in temporary investments, such as cash, cash equivalents, U.S. Government Securities and other high-quality debt investments that mature in one year or less, which the Company's Management expects will earn yields substantially lower than the interest, dividend or other income that the Company anticipates receiving in respects of investments in debt and equity securities of the Company's target portfolio of companies. As a result, the Company's ability to pay dividends to its initial years of operation will be based on the Company's ability to invest its capital in suitable companies in a timely manner. Further, the Company's Management fees payable to the Company's Management, will not be reduced while the Company's assets are invested in such temporary investments.

The Company's Business Model Depends upon the Development and Maintenance of Strong Referral Relationships with Investment Banking Firms, Professional Services Firms and Private Equity and Venture Capital Funds.

If the Company fails to maintain its relationship with key firms, or if the Company fails to establish strong referral relationships with other firms or other sources of investment opportunities, the Company will not be able to grow its portfolio and achieve its investment objectives. In addition, persons with whom the Company has informal relationships are not obligated to inform the Company of investment opportunities and therefore such relationships may not lead to the origination of portfolio company investments.

The Company May Not Realize Any Income or Gains from its Equity Investments

The Company intends to invest a substantial portion of its portfolio in equity securities, including common stock, convertible preferred securities and debt securities convertible into equity securities of its portfolio companies. The Company may receive warrants as part of any debt or equity investments. These equity interests the Company acquires may not appreciate in value and, in fact, may decline in value if the portfolio company fails to perform financially or achieve its growth objectives. The Company will generally have little, if any, control over the timing of any gains it may realize from its equity investments since the securities of the Company's portfolio companies may have restrictions on their transfer or may not have an active trading market.

Equity Investments also have experienced significantly more volatility in their returns and may underperform relative to fixed-income securities during certain periods. An adverse event, such as an unfavorable earnings report, may depress the value. Also, prices of equity investments are sensitive to general movements in the stock market and a drop in the stock market may depress the price of common stock investments to which the Company has exposure. Equity prices fluctuate for several reasons including changes in the investors' perceptions of the financial condition of an issuer or the general condition of the relevant stock market, or when political or economic events affecting the issuers occur. In addition, common stock prices may be particularly sensitive to rising interest rates, as the cost of capital rises and borrowing costs increase.

Since the Company intends to invest principally in equity securities, including common stock, convertible preferred securities and debt securities convertible into equity securities, of primarily micro-cap companies, the Company's primary emphasis will be

to generate capital gains through its equity investments in portfolio companies. Accordingly, although the Company expects to receive current income in the form of interest payments on its convertible debt investments and dividend payments on its convertible preferred equity investments, a substantial portion of the Company's income will likely be from the capital gains generated from the sale of its equity investments, the timing of which the Company's Managers cannot predict. The Company does not expect to generate capital gains from the sale of its portfolio investments on a level or uniform basis from quarter to quarter.

While the Company's investments will typically be made in private companies, the Company expects that these companies will become public reporting companies with their common stock being typically initially quoted on the OTC Market ("Over-the-Counter" Market). The Company does not expect the preferred equity of its portfolio companies to be listed or quoted on an exchange or quotation system. The Company also does not expect the common stock in its publicly traded portfolio companies to initially have a large number of freely tradable shares available for sale or an active secondary trading market and, as such, the common stock will not be illiquid until an active market develops. The Company believes that typically this liquidity will develop in conjunction with a NASDAQ Capital Market listing which may not occur until twelve to eighteen months after follow-on investments are made, if at all. The Company's convertible preferred stock instruments will generally provide for conversion upon the portfolio companies' achievement of certain milestone events, including a NASDAQ Capital Market listing for their common stock. However, there can be no assurance that the Company's portfolio companies will obtain either an OTC Market or NASDAQ Capital Market listing or, even if a listing is obtained, that an active trading market will ever develop in the common stock of the Company's publicly traded portfolio companies.

Accordingly, The Company may not be able to realize gains from its equity interests, and any gains that the Company does realize on the disposition of any equity interests may not be sufficient to offset any other losses the Company experiences. Furthermore, due to the expected growth of the Company's portfolio companies, the Company does not generally expect to receive dividend income from its common stock investments. In the case of cumulative preferred stock, there is no assurance that any dividends will ever be paid by a portfolio company.

The Company expects to Concentrate its Investments in Micro-Cap Companies, which are Subject to Many Risks, including Periodic Downturns

The Company expects to concentrate its investments in what the Company believes are "public ready" micro-cap companies. Under negative economic conditions, this could cause the Company's investment performance to be worse than business development companies with no such concentration. The Company may avoid purchasing certain securities in certain micro-cap companies when it is otherwise advantageous to purchase those securities or may sell certain securities of micro-cap companies when it is otherwise advantageous to hold those securities. In general, the Company's focus on micro-cap companies may affect its exposure to certain market segments, which may affect the Company's financial performance — positively or negatively — depending on whether these segments are in or out of favor.

The revenues, income (or losses) and valuations of micro-cap companies, can and often do fluctuate suddenly and dramatically. There is no assurance that decreases in market capitalizations will not occur, or that any decreases in valuations will be insubstantial or temporary in nature. Also, the Company's portfolio companies may face considerably more risk of loss and may not have the same returns as companies in other industry sectors due to their growth nature.

Even if the Company's portfolio companies are successful in becoming publicly-traded companies, there is no assurance that they will be able to achieve their projected revenue and earnings targets or effectively maintain their status as public reporting companies. In such case, there may be little or no demand for the securities of the Company's portfolio companies in the public markets, the Company may have difficulty disposing of its investments, and the value of the Company's investments may decline substantially.

The Value of the Company's Portfolio Securities May Not have a Readily Available Market Price and, in such case, the Company will Value these Securities at Fair Value as Determined in Good Faith by the Company's Board of Directors, which Valuation is Inherently Subjective and May Not Reflect what the Company may Actually Realize for the Sale of the Investment

The value of the Company's portfolio securities may not have readily available market prices. In such case, the Company will value these securities at fair value as determined in good faith by the Company's Board of Directors based upon the recommendation of the Company's Valuation Committee. In connection with that determination, investment professionals from the Alternative Securities Markets Group Energy Fund, Inc. will prepare portfolio company valuations using the most recent portfolio company financial statements and forecasts. The Board of Directors will also utilize the services of a third-party valuation firm, which will prepare valuations for each of the Company's portfolio investments for which no market quotations are readily available.

Even if the Equity Securities of the Company's Public Portfolio Companies may be Sold in the Public Markets, the Company expects these Securities will Initially be Thinly Traded and, as a Result, the Lack of Liquidity in the Company's Investments may Adversely Affect the Company's Business, and will Delay Distributions of Gains, if any

While the Company's investments will typically be made in private companies, the Company expects that, as part of the Company's investment process, these companies will become public reporting companies with their common stock typically being initially quoted on the OTC Market (OTCQB or OTCQX). The Company does not expect the preferred equity of its portfolio companies to be listed or quoted on an exchange or quotation system. The Company does not expect the common stock in its public portfolio companies to initially have an active secondary trading market and, as such, these securities will be illiquid until an active market develops. The Company believes that typically this liquidity will develop in conjunction with a NASDAQ Capital Market listing, which the Company does not expect to occur until eighteen to twenty-four months after the initial investment is made, if at all. The Company's convertible preferred stock instruments will generally provide for conversion upon the portfolio companies' achievement of certain milestone events, including a NASDAQ Capital Market listing for their common stock. However, there can be no assurance that the Company's portfolio companies will obtain either an OTC Market or NASDAQ Capital Market listing or, even if a listing is obtained, that an active trading market will ever develop in the securities of the Company's publicly traded portfolio companies.

The Company expects substantially all of the common stock the Company purchases in a portfolio company will be "restricted securities" within the meaning of Rule 144 under the Securities Act ("Rule 144"). As restricted securities, these shares may be resold only pursuant to an effective registration statement under the Securities Act or pursuant to the requirements of Rule 144 or other applicable exemption from registration under the Securities Act, and in accordance with any applicable state securities laws. Typically, the Company will seek to obtain registration rights in connection with its purchase of equity investments in a portfolio company. As such, the portfolio company will generally be required to file a resale registration statement under the Securities Act to register for resale the shares of common stock the Company has acquired. Notwithstanding such registration rights, the Company will be largely unable to control the timing of completion of any such registration process given external factors beyond the Company's control. Even if a resale registration statement is declared effective, there can be no assurances that the occurrence of subsequent events may not preclude a portfolio company's ability to maintain the effectiveness of such registration statement. Any of the foregoing items could have adverse effects on the liquidity of the Company's shares of common stock.

In addition, the SEC has recently disclosed that it has developed internal guidelines concerning the use of a resale registration statement to register the securities issued to certain investors in PIPE transactions, where the issuer has a market capitalization of less than \$75 million and, in general, does not qualify to file a registration statement on Form S-3 to register its securities. The SEC has indicated its position that these smaller issuers may not be able to rely on Rule 415 under the Securities Act ("Rule 415"), which generally permits the offer and sale of securities by selling shareholders on a continued or delayed basis over a period of time, but instead would require that the issuer offer and sell such securities in a direct or "primary" public offering, at a fixed price, if the facts and circumstances are such that the SEC believes the investors seeking to have their shares registered are underwriters and/or affiliates of the issuer. The Company believes that the SEC in most cases would permit a registration for resale of up to one third of the total number of shares of common stock then currently owned by persons who are not affiliates of such issuer and, in some cases, a larger percentage depending on the facts and circumstances.

SEC staff members also have indicated that an issuer in most cases will have to wait until the later of six months after effectiveness of the first registration or such time as substantially all securities registered in the first registration are sold before filing a subsequent registration on behalf of the same investors. Since the Company's portfolio companies will have little or no tradable shares of common stock, it is unclear as to how many, if any, shares of common stock the SEC will permit the Company's portfolio companies to register for resale. The SEC may require as a condition to the declaration of effectiveness of a resale registration statement that the Company reduce or "cut back" the number of shares of common stock to be registered in such registration statement. The result of the foregoing is that the liquidity in the common stock of the Company's portfolio companies may be adversely affected in the event the SEC requires a cut back of the securities as a condition to allow the Company's portfolio company to rely on Rule 415 with respect to a resale registration statement, or, if the SEC requires the Company's portfolio company to file a primary registration statement.

In the event the Company's portfolio companies are unable to register their common stock for resale under the Securities Act, the Company may be able to resell its common stock investments pursuant to an exemption from the registration requirements under the Securities Act if the Company meets the conditions of Rule 144. Rule 144 currently provides that a non-affiliated person (and who has not been an affiliate during the prior three months) may sell all of his/her/its restricted securities in a reporting company beginning six months after purchase, provided the issuer remains current in its reporting obligations during the next six months. However, an affiliated person may sell his/her/its restricted securities beginning six months after purchase, provided the following conditions are met: (i) the issuer is current in its reporting obligations, (ii) all sales are in brokerage transactions, (iii) a Form 144 is filed, and (iv) during every three months the number of shares sold that does not exceed 1.0% of a company's outstanding common stock.

In some cases, the Company may be deemed an affiliate of its portfolio companies based on the Company's level of stock ownership or the Company's ability to influence control over its portfolio company. As such, in the absence of an effective registration statement for the Company's shares, the Company may be limited in the number of shares it may be able to sell in any three months period under Rule 144. This illiquidity may make it difficult for the Company to sell such investments if the need arises. Also, if the Company is required to liquidate all or a portion of its portfolio quickly, the Company may realize significantly less than the value at which it has previously recorded its investments.

Compliance with the criteria for securing exemptions under federal securities laws and the securities laws of the various states is extremely complex, especially in respect of those exemptions affording flexibility and the elimination of trading restrictions in respect of securities received by the Company in exempt transactions and subsequently disposed of without registration under the Securities Act or state securities laws.

A sale under Rule 144 or under any other exemption from the Securities Act, if available, or pursuant to a registration statement, may have a depressive effect upon the price of the common stock of the Company's portfolio companies in any market that may develop.

The Company's Failure to Make Additional Investments in its Portfolio Companies could Impact the Value of the Company's Portfolio

Following the Company's initial and follow-on investments in a portfolio company, the Company may have opportunities to make additional subsequent investments in that portfolio company. The Company may elect not to make such additional subsequent investments or otherwise lack sufficient funds to make those investments. The Company has the discretion to make any additional subsequent investments, subject to the availability of capital resources. The failure to make additional subsequent investments may, in some circumstances, jeopardize the continued viability of a portfolio company and the Company's prior investments, or may result in a missed opportunity for the Company to increase its participation in a successful operation. Even if the Company has sufficient capital to make a desired additional subsequent investment, the Company may elect not to make that investment because the Company may not want to increase its concentration of risk, because the Company prefers other opportunities, or because the Company is inhibited by internal or external compliance. If the Company's portfolio companies are not able to generate sufficient cash flow from operations, they may lack sufficient capital to continue to grow their businesses, or they may not be able to continue their operations at all. If the Company's portfolio companies lack sufficient capital before they are able to obtain a NASDAQ Capital Market listing, there may be few, if any, options available to them to raise additional capital.

Because the Company likely will Not Hold Controlling Equity Interests in its Portfolio Companies, the Company may not be in a Position to Exercise Control Over Such Portfolio Companies or to Prevent Decisions by Management of such Portfolio Companies that Could Decrease the Value of the Company's Investments

The Company's equity investments will typically be non-controlling investments, meaning the Company will not be in a position to control the management, operation and strategic decision-making of the companies the Company is invested in. As a result, the Company will be subject to the risk that a portfolio company it does not control, or in which the Company does not have a majority ownership position, may make business decisions with which the Company disagrees, and the stockholders and management of such a portfolio company may take risks or otherwise act in ways that are adverse to the Company's interests. Due to the lack of liquidity for the debt and equity investments that the Company will typically hold in its portfolio companies, the Company may not be able to dispose of its investments in the event that the Company disagrees with the actions of a portfolio company, and may therefore suffer a decrease in the value of the Company's investments.

Investing in Primarily Micro-cap Companies May Present Certain Challenges to the Company, including the Lack of Available Information about these Companies

In accordance with the Company's investment strategy, the Company intends to make investments in primarily micro-cap private companies. Generally, very little public information exists about these companies, and the Company will be required to rely on the ability of the senior investment professionals and the Company's Management to obtain adequate information to evaluate the merits of investing in these companies. If the Company is unable to uncover all material information about these companies, then the Company may not make a fully informed investment decision, and the Company may lose money on its investments.

Resources could be Expended in Researching and Negotiating Investments that May Never be Consummated, even if Non-binding Letters of Intent or Definitive Agreements are Reached, which could Materially Adversely Affect Subsequent Attempts to Make Other Investments.

It is anticipated that the investigation of each specific target company and the negotiation, drafting, and execution of relevant agreements, disclosure documents, and other instruments will require substantial time and attention and substantial costs for accountants, attorneys, and others. If a decision is made not to complete a specific investment, the costs incurred up to that point for the proposed portfolio investment likely would not be recoverable. Furthermore, even if an agreement is reached relating to a specific portfolio investment, up to and including the execution of a definitive agreement, the Company may fail to consummate the portfolio investment for any number of reasons including those beyond the Company's control. Any such event will result in a loss to the Company of the related costs incurred.

Our Portfolio Companies are subject to Hazards that May Cause Personal Injury or Property Damage, thereby Subjecting the Company to Liabilities and Possible Losses that May Not Be Covered by Insurance and which have a Material Adverse effect on our Portfolio Companies Results of Operations and Financial Condition.

Our Portfolio Companies workers are subject to the hazards associated with producing Energy. Operating hazards can cause personal injury and loss of life, damage to, or destruction of, property, plant and equipment and environmental damage. Our Portfolio Companies maintain insurance coverage in amounts and against the risks that they believe are consistent with industry practice. However, our Portfolio Companies could sustain losses for uninsurable or uninsured risks, or in amounts in excess of existing insurance coverage. Events that result in significant personal injury or damage to a property that are not fully covered by insurance could have a material effect on our Portfolio Companies results or operations and financial position.

Insurance liabilities are difficult to assess and quantify due to unknown factors, including the severity of an injury, the determination of our Portfolio Companies liability in proportion to other parties, the number of incidents not reported and the effectiveness of our Portfolio Companies safety program(s). If our Portfolio Companies were to experience insurance claims or costs above the coverage limits or that are not covered by insurance, the portfolio companies may be required to use working capital to satisfy these claims rather than to maintain or expand their operations. To the extent that the Portfolio Company may experience a material increase in the frequency or severity of accidents or workers' compensation claims, or unfavorable developments on existing claims, their operating results and financial condition could be materially and adversely affect.

Minimum Amount of Capital to be Raised

Gross offering proceeds of a maximum of \$5,000,000 may be realized. Management believes that such proceeds will capitalize and sustain the Company sufficiently to allow for the implementation of the Company's Business Plans. If only a fraction of this Offering is sold, or if certain assumptions contained in Management's business plans prove to be incorrect, the Company may have inadequate funds to fully develop its business.

Competition

Competition exists for Investment Banking and Private Equity Capital products and services in most markets, including all sectors in which the Company intends to operate. The Company may be competing for assets with entities that have substantial greater economic and personnel resources than the Company or better relationships with Investment Banking and Private Equity Capital industry related professionals. These entities may also generally be able to accept more risk than the Company can manage. Competition from other Companies in the Investment Banking and Private Equity Capital industry may reduce the number of suitable prospective investment opportunities.

Dependence on Management

In the early stages of development the Company's business will be significantly dependent on the Company's Management Team. The Company's success will be particularly dependent upon the services of Mr. Steven Joseph Muehler, the Company's Founder, Chief Executive Officer & Chairman of the Company's Board of Directors. Other members of the Company's Management team can be found at <http://www.AlternativeSecuritiesMarket.com>.

Risks of Borrowing

Although the Company does not intend to incur any additional debt from the investment commitments provided in this offering, should the company obtain secure bank debt in the future, possible risks could arise. If the Company incurs additional indebtedness, a portion of the Company's cash flow will have to be dedicated to the payment of principal and interest on such new indebtedness. Typical loan agreements also might contain restrictive covenants, which may impair the Company's operating flexibility. Such loan agreements would also provide for default under certain circumstances, such as failure to meet certain financial covenants. A default under a loan agreement could result in the loan becoming immediately due and payable and, if unpaid, a judgment in favor of such lender which would be senior to the rights of members of the Company. A judgment creditor would have the right to foreclose on any of the Company's assets resulting in a material adverse effect on the Company's business, operating results or financial condition.

Unanticipated Obstacles to Execution of the Business Plan

The Company's business plans may change significantly. Many of the Company's potential business endeavors are capital intensive and may be subject to statutory or regulatory requirements. Management believes that the Company's chosen activities and strategies are achievable in light of current economic and legal conditions with the skills, background, and knowledge of the Company's principals and advisors. Management reserves the right to make significant modifications to the Company's stated strategies depending on future events.

Management Discretion as to Use of Proceeds

The net proceeds from this Offering will be used for the purposes described under "Use of Proceeds." The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated which it deems to be in the best interests of the Company and its Investors in order to address changed circumstances or opportunities. As a result of the foregoing, the success of the Company will be substantially dependent upon the discretion and judgment of Management with respect to application and allocation of the net proceeds of this Offering. Investors for the Units offered hereby will be entrusting their funds to the Company's Management, upon whose judgment and discretion the investors must depend.

Minimum Amount of Capital to be Raised

The minimum amount of Securities that need to be sold in this offering for the Company to access the investment funds is \$50,000. After the Minimum Amount of Capital required to be reached, all Investor funds will be transferred from the Company's Investment Holding Account to the Company. The Company cannot assure you that subscriptions for the entire Offering will be obtained. The Company has the right to terminate this offering of Securities at any time, regardless of the number of Securities that have sold. The Company's ability to meet financial obligations, cash needs, and to achieve objectives, could be adversely affected if the entire offering of Securities is not fully subscribed.

Management Discretion as to Use of Proceeds

The net proceeds from this Offering will be used for the purposes described under "Use of Proceeds." The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated which it deems to be in the best interests of the Company and its Investors in order to address changed circumstances or opportunities. As a result of the foregoing, the success of the Company will be substantially dependent upon the discretion and judgment of Management with respect to application and allocation of the net proceeds of this Offering. Investors for the Units offered hereby will be entrusting their funds to the Company's Management, upon whose judgment and discretion the investors must depend.

Unanticipated Obstacles to Execution of the Business Plan

The Company's business plans may change significantly. Many of the Company's potential business endeavors are capital intensive and may be subject to statutory or regulatory requirements. Control by Management

As of May 1st, 2014 Blue Coast Securities Corporation (DBA: "Alternative Securities Markets Group") owned 100% of the Company's outstanding Common Stock Units and 0% of the Company's Preferred Stock Units. Upon completion of this Offering, Blue Coast Securities Corporation (DBA: "Alternative Securities Markets Group") will own 100% of the outstanding Common Stock Units of the Company and 0% of the outstanding Preferred Stock Units of the Company. Investors will not have the ability to control either a vote of the Company's Managers or any appointed officers. See "COMPANY MANAGERS" section.

Return of Profits

The Company has never declared or paid any cash dividends on its Common Stock. The Company currently intends to retain future earnings, if any, to finance the expansion of the Company's Operations and Holdings. As a result, the Company does not anticipate paying any cash dividends to its Common Stock Holders for the foreseeable future.

No Assurances of Protection for Proprietary Rights; Reliance on Trade Secrets

In certain cases, the Company may rely on trade secrets to protect intellectual property, proprietary technology and processes, which the Company has acquired, developed or may develop in the future. There can be no assurances that secrecy obligations will be honored or that others will not independently develop similar or superior products or technology. The protection of intellectual property and/or proprietary technology through claims of trade secret status has been the subject of increasing claims and litigation by various companies both in order to protect proprietary rights as well as for competitive reasons even where proprietary claims are unsubstantiated. The prosecution of proprietary claims or the defense of such claims is costly and uncertain given the uncertainty and rapid development of the principles of law pertaining to this area. The Company, in common with other investment funds, may also be subject to claims by other parties with regard to the use of intellectual property, technology information and data, which may be deemed proprietary to others.

The Company's Continuing as a Going Concern Depends Upon Financing

If the Company does not raise sufficient working capital and continues to experience pre-operating losses, there will most likely be substantial doubt as to its ability to continue as a going concern. Because the Company has generated no revenue, all expenditures during the development stage have been recorded as pre-operating losses. Revenue operations have not commenced because the Company has not raised the necessary capital.

Broker - Dealer Sales of Units

The Company's Preferred Stock Units and Common Stock Units are not included for trading on any exchange, and there can be no assurances that the Company will ultimately be registered on any exchange. The NASDAQ Stock Market, Inc. has recently enacted certain changes to the entry and maintenance criteria for listing eligibility on the NASDAQ SmallCap Market. The entry standards require at least \$4 million in net tangible assets or \$750,000 net income in two of the last three years. The proposed entry standards would also require a public float of at least 1 million shares, \$5 million value of public float, a minimum bid price of \$2.00 per share, at least three market makers, and at least 300 shareholders. The maintenance standards (as opposed to entry standards) require at least \$2 million in net tangible assets or \$500,000 in net income in two of the last three years, a public float of at least 500,000 shares, a \$1 million market value of public float, a minimum bid price of \$1.00 per share, at least two market makers, and at least 300 shareholders.

No assurance can be given that the Preferred Stock or Common Stock Units of the Company will ever qualify for inclusion on the NASDAQ System or any other trading market until such time as the Managing Members deem it necessary. As a result, the Company's Preferred Stock Units and Common Stock Units are covered by a Securities and Exchange Commission rule that opposes additional sales practice requirements on broker-dealers who sell such securities to persons other than established customers and qualified investors. For transactions covered by the rule, the broker-dealer must make a special suitability determination for the purchaser and receive the purchaser's written agreement to the transaction prior to the sale. Consequently, the rule may affect the ability of broker-dealers to sell the Company's securities and will also affect the ability of members to sell their units in the secondary market.

Secondary Market

No application is currently being prepared for the Company's Securities to be admitted to the Official Listing and trading on any regulated market. No application is being prepared to include the Securities to trading on an "Over-the-Counter" or "Open Market", though the Company intends to submit an S-1 or Form 10 Filing within TWELVE MONTHS of the close of this securities offering. There can be no assurance that a liquid market for the Securities will develop or, if it does develop, that it will continue. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Securities easily or at prices that will provide them with yield comparable to similar investments that have a developed secondary market. Illiquidity may have a **severely adverse effect on the market value of the Securities and investors wishing to sell the Securities might therefore suffer losses.**

Certain Factors Related to Our Common Stock

Because the Company's Common Stock may be considered a "penny stock," and a shareholder may have difficulty selling shares in the secondary trading market.

The Company's Common Stock Securities may be subject to certain rules and regulations relating to "penny stock" (generally defined as any equity security that has a price less than \$5.00 per share, subject to certain exemptions). Broker-dealers who sell penny stocks are subject to certain "sales practice requirements" for sales in certain nonexempt transactions (i.e., sales to persons other than established customers and institutional "qualified investors"), including requiring delivery of a risk disclosure document relating to the penny stock market and monthly statements disclosing recent price information for the penny stocks held in the account, and certain other restrictions. For as long as the Company's Common Stock is subject to the rules on penny stocks, the market liquidity for such securities could be significantly limited. This lack of liquidity may also make it more difficult for the Company to raise capital in the future through sales of equity in the public or private markets.

The price of the Company's Common Stock may be volatile, and a shareholder's investment in the Company's Common Stock could suffer a decline in value.

There could be significant volatility in the volume and market price of the Company's Common Stock, and this volatility may continue in the future. The Company's Common Stock may be listed on the OTCQB, OTCQX, OTCBB, The Bermuda BSX Exchange, the London Stock Exchange's AIM Market, the Canadian TSX Venture Exchange or TMX Exchange, the Irish Stock Exchange, the Frankfurt Stock Exchange and / or the Berlin Stock Exchange, where each has a greater chance for market volatility for securities that trade on these markets as opposed to a national exchange or quotation system. This volatility may be caused by a variety of factors, including the lack of readily available quotations, the absence of consistent administrative supervision of "bid" and "ask" quotations and generally lower trading volume. In addition, factors such as quarterly variations in our operating results, changes in financial estimates by securities analysts or our failure to meet our or their projected financial and operating results, litigation involving us, general trends relating to the Energy Industry, actions by governmental agencies, national economic and stock market considerations as well as other events and circumstances beyond our control could have a significant impact on the future market price of our Common Stock and the relative volatility of such market price.

Compliance with Securities Laws

The Company's Securities are being offered for sale in reliance upon certain exemptions from the registration requirements of the Securities Act, applicable California Securities Laws, and other applicable state securities laws. If the sale of Securities were to fail to qualify for these exemptions, purchasers may seek rescission of their purchases of Securities. If a number of purchasers were to obtain rescission, we would face significant financial demands, which could adversely affect the Company as a whole, as well as any non-rescinding purchasers.

Offering Price

The price of the Securities offered has been arbitrarily established by our current Managers, considering such matters as the state of the Company's business development and the general condition of the industry in which it operates. The Offering price bears little relationship to the assets, net worth, or any other objective criteria.

Lack of Firm Underwriter

The Securities are offered on a “best efforts” basis by the Company Managers, without compensation and on a “best efforts” basis through certain FINRA registered broker-dealers, which enter into Participating Broker-Dealer Agreements with the Company. Accordingly, there is no assurance that the Company, or any FINRA broker-dealer, will sell the maximum Securities offered or any lesser amount.

Projections: Forward Looking Information

Management has prepared projections regarding anticipated financial performance. The Company’s projections are hypothetical and based upon a presumed financial performance of the Company, the addition of a sophisticated and well funded marketing plan, and other factors influencing the business. The projections are based on Management’s best estimate of the probable results of operations of the Company and the investments made by management, based on present circumstances, and have not been reviewed by independent accountants and/or auditing counsel. These projections are based on several assumptions, set forth therein, which Management believes are reasonable. Some assumptions, upon which the projections are based, however, invariably will not materialize due the inevitable occurrence of unanticipated events and circumstances beyond Management’s control. Therefore, actual results of operations will vary from the projections, and such variances may be material. Assumptions regarding future changes in sales and revenues are necessarily speculative in nature. In addition, projections do not and cannot take into account such factors as general economic conditions, unforeseen regulatory changes, the entry into a market of additional competitors, the terms and conditions of future capitalization, and other risks inherent to the Company’s business. While Management believes that the projections accurately reflect possible future results of operations, those results cannot be guaranteed.

ITEM 4. PLAN OF DISTRIBUTION

A maximum of 10,000 12% Convertible Preferred Stock Units are being offered to the public at \$500 per 12% Convertible Preferred Stock Unit. A minimum of \$50,000 must be invested prior to the Company having access to the Investment Proceeds. A maximum of \$5,000,000 will be received from the offering. No Securities are being offered by any selling shareholders. The Company will receive all proceeds from the sale of Securities after the minimum of \$50,000 has been reached.

The Offering is on a "Best Efforts" basis and is being offered directly by the Company and its Management. There are no plans to stabilize the market for the Securities to be offered. Investors can purchase Securities directly from the Company by completing a Subscription Agreement Online at www.AlternativeSecuritiesMarket.com. Securities can be purchased by check, money order, or bank wire transfer. Investors should call the Company for bank wire transfer instructions should they choose that method of payment for Securities.

If an underwriter is selected to assist in this offering, the Company will be required to amend the Form 1-A to include the disclosures required regarding engaging an underwriter to assist in the offering.

Although the Company is not using a selling agent or finder in connection with this Offering, it will use a website as an online portal and information management tool in connection with the Offering. The Website is owned and operated by Blue Coast Securities Corporation, the majority shareholder of Alternative Securities Markets Group Energy Fund, Inc., and can be viewed at <http://www.AlternativeSecuritiesMarket.com>.

This Offering Circular will be furnished to prospective Investors upon their request via electronic PDF format and will be available for viewing and download 24 hours per day, 7 days per week on the website.

In order to subscribe to purchase the Securities, a prospective Investor must complete, sign and deliver the executed Subscription Agreement, Investor Questionnaire and Form W-9 to **Alternative Securities Markets Group Energy Fund, Inc.** and either mail or wire funds for its subscription amount in accordance with the instructions included in the Subscription Package.

The Investing Section of the Website Hosting this Offering will be coded to only allow access to invest to those prospective Investors that reside in jurisdictions where the Offering is registered and meet any state-specific Investor suitability standards.

The Company reserves the right to reject any Investor's subscription in whole or in part for any reason. If the Offering terminates or if any prospective Investor's subscription is rejected, all funds received from such Investors will be returned without interest or deduction.

In addition to this Offering Circular, subject to limitations imposed by applicable securities laws, we expect to use additional advertising, sales and other promotional materials in connection with this Offering. These materials may include public advertisements and audio-visual materials, in each case only as authorized by the Company. Although these materials will not contain information in conflict with the information provided by this Offering and will be prepared with a view to presenting a balanced discussion of risk and reward with respect to the Securities, these materials will not give a complete understanding of this Offering, the Company or the Securities and are not to be considered part of this Offering Circular. This Offering is made only by means of this Offering Circular and prospective Investors must read and rely on the information provided in this Offering Circular in connection with their decision to invest in the Securities.

ITEM 6. DESCRIPTION OF BUSINESS

Alternative Securities Markets Group Energy Fund, Inc., a California Stock Corporation, with Corporate Offices in Beverly Hills, California was formed to operate as Investment Banking and Private Equity Capital Firm for Micro-cap Energy Industry Companies. The Company will invest the proceeds from investor subscription commitments, purchased through this offering, into multiple early and growth stage Companies in the United States and Canada. Alternative Securities Markets Group Energy Fund, Inc. Officers and Directors will direct all investments for the Company.

The Company will invest in a Diversified Portfolio of Early and Growth Stage Energy Industry Companies throughout the United States and Canada, which will be structured as equity and/or debt investments. Each investment will be in conjunction with local market partners, or producers, that offer the Company potentially higher yielding investment opportunities.

The Company will act as an Investment Banking and Private Equity Capital provider. The Company will invest up to \$100,000 per venture.

As an integral part of the Company's initial investment, the Company intends to partner with and help prepare its portfolio companies to become public and meet the governance and eligibility requirements of a NASDAQ Capital Market listing. Because the Company believes that the initial public offering ("IPO") market is virtually non-existent for micro-cap companies, the Company intends that its portfolio companies will go public through the filing of a registration statement under the Securities Act or the Exchange Act. The Company intends to invest in micro-cap companies that it believes will be able to file a registration statement with the U.S. Securities and Exchange Commission ("SEC") within approximately one to two years after the Company's initial investment. These registration statements will typically take the form of a resale registration statement filed by a portfolio company under the Securities Act coupled with a concurrent registration of the portfolio company's common stock under the Exchange Act, or alternatively a stand-alone registration statement registering the common stock of a portfolio company under the Exchange Act without a concurrent registered offering under the Securities Act.

While the Fund expects the common stock of its portfolio companies to be quoted on the Over-the-Counter Securities Market (the OTCQB or OTCQX) following the completion of the registration process, the Company intends to target investments in portfolio companies that it believes will be able to qualify for a NASDAQ Capital Market listing within approximately one to three years after completion of follow-on investments. The Company can provide no assurance, however, that the micro-cap companies in which it invests will be able to successfully complete the SEC registration process, or that they will be successful in obtaining a listing on the OTCQB, OTCQX or the NASDAQ Capital Market within the expected timeframe, if at all.

The Company intends to maximize its potential for capital appreciation by taking advantage of the premium it believes is generally associated with having a more liquid asset, such as a publicly traded security. Specifically, the Company believes that a NASDAQ Capital Market listing, if obtained, will generally provide the Company's portfolio companies with greater visibility, marketability, and liquidity than they would otherwise be able to achieve without such a listing. Since the Company intends to be a more patient investor, the Company believes that its portfolio companies may have an even greater potential for capital appreciation if they are able to demonstrate sustained earnings growth and are correspondingly rewarded by the public markets with a price-to-earnings (P/E) multiple appropriately linked to earnings performance. The Company can provide no assurance, however, that the micro-cap companies in which the Company may invest will be able to achieve such sustained earnings growth necessary, or that the public markets will recognize such growth, if any, with an appropriate market premium.

Investment Objectives

- The Company will focus on investing the proceeds from this offering into a diversified portfolio of value-added and opportunistic early and growth stage Energy Industry Companies and will target varying risk profiles including:
 - Value-added opportunities (Internal Rate of Return ranging between 25% to 40%+)
 - Opportunistic opportunities (Internal Rate of Return ranging from 40% to 50%+)

Investment Strategy

- The Company will direct investments through joint-ventures with local operating partners that have extensive experience in the Energy Industry.
- The joint ventures formed will allow the Company to leverage the visionary mindset these Energy Industry Entrepreneurs possess, while offering financial expertise that is in high demand in this target market; and
- High returns will be targeted through early and growth stage Energy Industry investments that add-value to small and middle market consumers and mitigate escalating capitalization rates paid into larger and slow growth Energy markets.

Operation

Alternative Securities Markets Group Energy Fund, Inc, a California Stock Corporation was originally formed in July of 2009 as "LA Investment Capital Energy Fund, LLC" a Limited Liability Corporation. The Company was converted to a California Stock Corporation in April of 2012, and the name of the Company was changed to "Blue Coast Energy Fund, Inc". In June of 2014, the Company's name was changed to "Alternative Securities Markets Group Energy Fund, Inc.". The Company was formed for the purpose of operating as an early and growth stage Energy Investments Company. The Company is currently seeking \$5,000,000 in capital for investment into new and current Energy Companies and Projects. The Company will act as a private equity provider to small and middle market Energy Companies throughout North and South America, and will invest capital in the form of equity and/or debt. The Company has a target investment IRR of 40%+ per annum.

Blue Coast Securities Corporation (DBA: "Alternative Securities Markets Group") was formed in December of 2008 as a California Limited-Liability Corporation and converted to a California Stock Corporation in April of 2012. The primary focus of the Alternative Securities Markets Group is to provide investment management services to its investors and equity or debt financing to early and growth stage Energy Companies.

¹Over the past three years, the Alternative Securities Markets Group has been able to establish valuable relationships with Energy Industry executives and government officials in both North and South America.

MISSION

Alternative Securities Markets Group provides two services:

1. **Investment Management:** Alternative investment opportunities in the Energy Industry to investors that would not normally be available; for example, Alternative Securities Markets Group Energy Fund, Inc. has targeted initial investments in multiple early and growth stage Energy Companies in both North and South America, either through joint venture financing or outright investments. Investors will be able to reap the investment returns from all investments in the portfolio, generating higher returns and mitigating risk factors. Investors will also have the opportunity, if desired, to select what investment opportunities they wish to invest in, which is a valuable service to risk adverse investors; and
2. **Financing Alternatives:** Capital to established Energy Industry professionals in the form of equity investment joint-ventures.

Since inception, Alternative Securities Markets Group has been able to form business relationships with numerous Energy Industry professionals in North and South America, and has earned the opportunity to move forward on several projects. Due to a lax in funding from investors, several projects have been put on hold but the opportunity to resume negotiations is apparent. *The primary mission of Alternative Securities Markets Group & Alternative Securities Markets Group Energy Fund, Inc. is to maintain the highest standard in ethical investment practices and offer both Energy Industry Professionals and Investors superior Energy Investment Capitalization.*

It is the view of the Company that not every Energy Investment opportunity will be a perfect match for investment by the Company, and that each investment must be uncovered through sound analytical analysis and exhaustive due diligence. Each asset considered for an equity investment is negotiated and analyzed with the investor's interest at heart. Uncovering each risk and determining return expectations is the fundamental responsibility of Alternative Securities Markets Group to investors of

Alternative Securities Markets Group Energy Fund, Inc. In addition to the investment analysis performed, the Company's legal team reviews all agreements pertaining to the investment.

Alternative Securities Markets Group is in the business of sourcing, investing, and managing Energy Industry Investments and providing services that are unparalleled to any firm in operation. Alternative Securities Markets Group prides itself in the importance of understanding the Energy Market, the economic climate, and Energy Industry Entrepreneur and investor needs and expectations.

INVESTMENT STRATEGY

The Company will seek to invest in a diversified portfolio of early and growth stage Energy Industry investments that reflects a balance of investment risk profiles. The Company targets class A and middle market early and growth stage Energy companies seeking a financial partner to provide private equity commitments in return for cash flow and equity participation. The strategy of the Company is focused yet flexible to differentiating market conditions. The Company's investment strategy is designed to enable the Company to capitalize on Alternative Securities Markets Group's growing presence in the Energy market in North and South America. By targeting new Energy Companies with a range of investment returns, Alternative Securities Markets Group believes the Company presents an investment vehicle that will offer the potential for attractive returns generated by new asset value creation. Alternative Securities Markets Group Energy Fund, Inc. will target investment opportunities that are expected to generate, upon stabilization of the Company, total returns of 40% plus per annum.

In return for the capital provided to each company, the Company will take an ownership interest in each company through individually tailored joint-ventures and have specific transaction structures. Each joint-venture's terms will vary based on the type of asset, location, demographic market, and risk profile. In addition, the credit profile and experience of the investment's management team will play a large role in the amount of structural mechanics designed to maintain expected returns.

The Company will seek to assemble a diversified portfolio that will reflect a mix of risk profiles by targeting Energy Investments within varied markets located throughout North and South America. While investment opportunities will change over time and vary between markets, the following represents a summary of the type of opportunities the Company intends to pursue in the current investment environment.

REMAINDER OF PAGE LEFT BLANK INTENTIONALLY

Balance of Investment Risk

In addition to an investment portfolio focusing on diversified early and growth stage Energy Industry Investments, the Company intends to assemble a portfolio of Energy Industry Investments that reflects a balance of risk profiles by targeting a mix of value-added and opportunistic investments. This strategy is designed to generate opportunistic returns through new asset creation, while mitigating risk through partnerships with operating partners. As a result, Alternative Securities Markets Group firmly believes that the Company will have the potential to generate returns that adequately compensate investors for the risk assumed.

Value-Added Opportunities

The Company will focus on making Energy Investments that enable it to capitalize on value-added Energy transactions. Value-Added is defined as the process of changing or transforming a product from its original state to a more valuable state. These types of Energy Investments involve companies that are not performing at their full potential and where the game plan is to bring to bear the talent and experience of an operating partner to increase the company's value and thus investment returns to investors. Examples of value-added investments include:

- Expansion;
- Renovation of old assets
- Acquisition of producing Assets
- Re-positioning market strategies

These types of investments involve more risk because of the uncertainty of the success of the value-added projects, and thus strive for higher returns. Typical value-added returns range between 25-40% per annum, over the life of the investment.

Opportunistic Opportunities

The Company will also focus on making opportunistic Energy investments to boost returns and leverage the financial capabilities of Alternative Securities Markets Group Energy Fund, Inc. Opportunistic investments are available through Energy Market inefficiencies. Opportunistic investments will include:

- Investing into a company valued below market prices and receiving a larger equity position than what would be considered standard;
- Investing in an already cash flowing company for below market value that can provide cash flow into the Company.
- Providing capital for upgrades or improvements that increase the asset value over historical averages.

These types of investments require an experienced operating partner and financial partner. Alternative Securities Markets Group prides itself in understanding each target market and capitalizing on the experience of each operating partner. The Company plans to execute opportunistic investments that reward it for higher risk investments. Typical opportunistic investments returns range above 50% per annum.

EXIT STRATEGIES

The term of the Investment detailed in this offering is expected to be at least two years, but no greater than five years, and the final exit of the Company will come through one of the four following methods:

- Become publicly listed:
 - U.S. OTCQB or OTCQX Listing - Summer / Fall 2015
 - Bermuda Stock Exchange Mezzanine Market - Spring / Summer 2015
 - Frankfurt or Berlin Stock Exchange Open Market - Spring / Summer 2015
- Move to a regulated within 24-36 months of Listing
 - U.S. NASDAQ Market - 2016 or 2017
 - Bermuda Stock Exchange Regulated Market - 2016 or 2017
 - Frankfurt Stock Exchange Regulate Market - 2016 or 2017

Indemnification of Directors and Officers:

The Company is incorporated under the laws of California. California General Corporation Law provides that a corporation may indemnify directors and officers as well as other employees and individuals against expenses including attorneys' fees, judgments, fines and amounts paid in settlement in connection with various actions, suits or proceedings, whether civil, criminal, administrative or investigative other than an action by or in the right of the corporation, a derivative action, if they acted in good faith and in a manner they reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, if they had no reasonable cause to believe their conduct was unlawful. A similar standard is applicable in the case of derivative actions, except that indemnification only extends to expenses including attorneys' fees incurred in connection with the defense or settlement of such actions and the statute requires court approval before there can be any indemnification where the person seeking indemnification has been found liable to the corporation. The statute provides that it is not exclusive of other indemnification that may be granted by a corporation's certificate of incorporation, bylaws, agreement, and a vote of stockholders or disinterested directors or otherwise.

The Company's Certificate of Incorporation provides that it will indemnify and hold harmless, to the fullest extent permitted by California's General Corporation Law, as amended from time to time, each person that such section grants us the power to indemnify.

California's General Corporation Law permits a corporation to provide in its certificate of incorporation that a director of the corporation shall not be personally liable to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability for:

- any breach of the director's duty of loyalty to the corporation or its stockholders;
- acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- payments of unlawful dividends or unlawful stock repurchases or redemptions; or
- any transaction from which the director derived an improper personal benefit.

The Company's Certificate of Incorporation provides that, to the fullest extent permitted by applicable law, none of our directors will be personally liable to us or our stockholders for monetary damages for breach of fiduciary duty as a director. Any repeal or modification of this provision will be prospective only and will not adversely affect any limitation, right or protection of a director of our company existing at the time of such repeal or modification.

SUBSCRIPTION AGREEMENT

12% Convertible Preferred Stock Units 1 to 10,000

Subject to the terms and conditions of the shares of 12% Preferred Convertible Preferred Stock Units (the "Convertible Preferred Stock") described in the Alternative Securities Markets Group Energy Fund, Inc. Offering Circular dated June 1st, 2014 (the "Offering"), I hereby subscribe to purchase the number of shares of 12% Convertible Preferred Stock set forth below for a purchase price of \$500.00 per share. Enclosed with this subscription agreement is my check (Online "E-Check" or Traditional Papery Check) or money order made payable to "Alternative Securities Markets Group Energy Fund, Inc." evidencing \$500.00 for each share of Convertible Preferred Stock Subscribed, subject to a minimum of ONE 12% Preferred Convertible Preferred Stock Unit (\$500.00).

I understand that my subscription is conditioned upon acceptance by Alternative Securities Markets Group Energy Fund, Inc. Company Managers and subject to additional conditions described in the Offering Circular. I further understand that Alternative Securities Markets Group Energy Fund, Inc. Company Managers, in their sole discretion, may reject my subscription in whole or in part and may, without notice, allot to me a fewer number of shares of 12% Convertible Preferred Stock that I have subscribed for. In the event the Offering is terminated, all subscription proceeds will be returned with such interest as may have been earned thereon.

I certify that I have read the Offering Circular and that I am relying on no representations other than those set forth in the Offering Circular. I understand that when this subscription agreement is executed and delivered, it is irrevocable and binding to me. I further understand and agree that my right to purchase shares of 12% Convertible Preferred Stock offered by the Company may be assigned or transferred to any third party without the express written consent of the Company ONLY through the Alternative Securities Markets Group's Securities Resale Portal at <http://www.AlternativeSecuritiesMarket.com>, and that no public market for the Company's securities has been created or may be created in the future.

I further certify, under penalties of perjury, that: (1) the taxpayer identification number shown on the signature page of this Offering Circular is my correct identification number; (2) I am not subject to backup withholding under the Internal Revenue Code because (a) I am exempt from backup withholding; (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and (3) I am a U.S. citizen or other U.S. person (as defined in the instructions to Form W-9).

SUBSCRIPTION AGREEMENT (the "Agreement") with the undersigned Purchaser for _____ 12% Convertible Preferred Stock Units of Alternative Securities Markets Group Energy Fund, Inc., with no par value per share, at a purchase price of **\$500.00 (FIVE HUNDRED DOLLARS AND ZERO CENTS) per share** (aggregate purchase price: \$ _____).

Made as of this _____ day of _____, 2014 by and between Alternative Securities Markets Group Energy Fund, Inc., a California Stock Corporation (the "Company"), and the Purchaser whose signature appears below on the signature line of this Agreement (the "Purchaser").

WITNESETH:

WHEREAS, the Company is offering for sale up to TEN THOUSAND 12% Convertible Preferred Stock Units (the "Shares") (such offering being referred to as the "Offering").

NOW, THEREFORE, the Company and the Purchaser, in consideration of the mutual covenants contained herein and intending to be legally bound, do hereby agree as follows:

- 1 **Purchase and Sale.** Subject to the terms and conditions hereof, the Company shall sell, and the Purchaser shall purchase, the number of Shares indicated above at the price so indicated.
2. **Method of Subscription.** The Purchaser is requested to complete and execute this agreement online or to print, execute and deliver two copies of this Agreement to the Company, at **Alternative Securities Markets Group Energy Fund, Inc. , C/O: Alternative Securities Markets Group, 9107 Wilshire Blvd., Suite 450, Beverly Hills, California 90210**, payable by check to the order of **Alternative Securities Markets Group Energy Fund, Inc.** in the amount of the aggregate purchase price of the Shares subscribed (the "Funds"). The Company reserves the right in its sole discretion, to accept or reject, in whole or in part, any and all subscriptions for Shares.
- 3 **Subscription and Purchase.** The Offering will begin on the effective date of the Offering Statement and continue until the Company has sold all of the Shares offered hereby or on such earlier date as the Company may close or terminate the Offering.

Any subscription for Shares received will be accepted or rejected by the Company within 30 days of receipt thereof or the termination date of this Offering, if earlier. If any such subscription is accepted, in whole or part, the Company will promptly deliver or mail to the Purchaser (i) a fully executed counterpart of this Agreement, (ii) a certificate or certificates for the Shares being purchased, registered in the name of the Purchaser, and (iii) if the subscription has been accepted only in part, a refund of the Funds submitted for Shares not purchased. Simultaneously with the delivery or mailing of the foregoing, the Funds deposited in payment for the Shares purchased will be released to the Company. If any such subscription is rejected by the Company, the Company will promptly return, without interest, the Funds submitted with such subscription to the subscriber.

- 4 **Representations, Warranties and Covenants of the Purchaser.** The Purchaser represents, warrants and agrees as follows:

(a) Prior to making the decision to enter into this Agreement and invest in the Shares subscribed, the Purchaser has received and read the Offering Statement. On the basis of the foregoing, the Purchaser acknowledges that the Purchaser processes sufficient information to understand the merits and risks associated with the investment in the Shares subscribed. The Purchaser acknowledges that the Purchaser has not been given any information or representations concerning the Company or the Offering, other than as set forth in the Offering Statement, and if given or made, such information or representations have not been relied upon by the Purchaser in deciding to invest in the Shares subscribed.

(b) The Purchaser has such knowledge and experience in financial and business matters that the Purchaser is capable of evaluating the merits and risks of the investment in the Shares subscribed and the Purchaser believes that the Purchaser's prior investment experience and knowledge of investments in low-priced securities ("penny stocks") enables the Purchaser to make an informal decision with respect to an investment in the Shares subscribed.

(c) The Shares subscribed are being acquired for the Purchaser's own account and for the purposes of investment and not with a view to, or for the sale in connection with, the distribution thereof, nor with any present intention of distributing or selling any such Shares.

(d) The Purchaser's overall commitment to investments is not disproportionate to his/her net worth, and his/her investment in the Shares subscribed will not cause such overall commitment to become excessive.

(e) The Purchaser has adequate means of providing for his/her current needs and personal contingencies, and has no need for current income or liquidity in his/her investment in the Shares subscribed.

(f) With respects to the tax aspects of the investment, the Purchaser will rely upon the advice of the Purchaser's own tax advisors.

(g) The Purchaser can withstand the loss of the Purchaser's entire investment without suffering serious financial difficulties.

(h) The Purchaser is aware that this investment involves a high degree of risk and that it is possible that his/her entire investment will be lost.

(i) The Purchaser is a resident of the State set forth below the signature of the Purchaser on the last age of this Agreement.

- 5 **Company Convertible Securities:** All 12% Convertible Preferred Stock Units must be Converted to Company Common Stock either in the 3rd, 4th or 5th year under the following terms and conditions at the Shareholders' Option:

YEAR 3: (Shareholder Conversion Option)

At any time during the third year of the investment, the Shareholder may on the First Business Day of Each Month, choose to convert each Unit of the Company's 12% Convertible Preferred Stock for Common Stock of the Company at the market price of the Company's Common Stock at the time of Conversion. The closing price will be the weighted average price of the Common Stock Closing Price over the previous 60 days. Fractional interests will be paid to the shareholder by the Company in cash.

The Shareholder can sell the 12% Convertible Preferred Stock Units back to the Company at any time after two years for the full face value of the Shares plus any accrued interest, though the Company has no obligation to purchase the Shares.

YEAR 4: (Optional Conversion Option)

At any time during the fourth year of the investment, the Shareholder may on the First Business Day of Each Month choose to convert each Unit of the Company's 12% Convertible Preferred Stock for Common Stock of the Company at market price minus a 2.5% discount of the Company's Common Stock at the time of Conversion. The closing price will be the weighted average price of the Common Stock Closing Price over the previous 60 days. Fractional interests will be paid to the shareholder by the Company in cash.

The Shareholder can sell the 12% Convertible Preferred Stock Units back to the Company at any time after two years for the full face value of the Shares plus any accrued interest, though the Company has no obligation to purchase the Shares.

YEAR 5: (Optional & Mandatory Conversion Options)

Optional: At any time during the fifth year of the investment, the Shareholder may on the First Business Day of Each Month choose to convert each Unit of the Company's 12% Convertible Preferred Stock for Common Stock of the Company at market price minus a 5% discount of the Company's Common Stock at the time of Conversion. The closing price will be the weighted average price of the Common Stock Closing Price over the previous 60 days. Fractional interests will be paid to the shareholder by the Company in cash.

The Shareholder can sell the 12% Convertible Preferred Stock Units back to the Company at any time after two years for the full face value of the Shares plus any accrued interest, though the Company has no obligation to purchase the Shares.
